

Florida Department of Transportation On-The-Job Training Program

What is the On-The-Job Training Program?

On-The-Job Training is part of the contractor's Equal Employment Opportunity Affirmative Action Program. Contractors are encouraged to utilize the On-The-Job Training (OJT) Program to achieve diversity in the construction and transportation industry.

Can you imagine yourself working in the construction field?

There are many opportunities to work in the construction field. A few examples of the training classifications that are available through the OJT program are: Rough Roller Operator, Grade Checker, Asphalt Screed Operator, Backhoe Operator, and many, many more. The OJT program is a great opportunity for someone who has not been in the construction industry. The contractor will train you and there is no experience necessary for this program, just the willingness to learn.

Want to learn more?

For more information about the OJT program and career opportunities in the construction industry, contact one of our contractors. You can start with the CCD Sponsors at
